Dispersions in Watercolour
for solo violin

***Dispersions in Watercolor* for solo violin (2018)**

Dispersions in Watercolour explores ideas the ways that the colour of watercolour paints dissipates across a canvas. When you initially make a mark on a canvas the colour is rich, before seeping away on the contours of the surface texture, creating delicate branches of fading colour. It was with this in mind that *Dispersions in Watercolour* was written.

c. 8-10 mins

Angela Elizabeth Slater

Performance notes:

1) Sul ponticello and sul tasto are abbreviated in most cases to S.P. and S.T. respectively. Normal playing position is reinstated by indication of nat..

2) . -> : gradually move from one technique/position to another.

3) When there is more than one note to trill to, alternate freely between the options given.

4) Pressure trill: a trill produced by alternating the finger pressure between normal (♫) and light (harmonic ♪).

These will be indicated with the same note as a harmonic in brackets with a tr symbol above.

5)  Add bow pressure to produce a distorted sound, in which the sounding pitch is completely replaced by noise and then comes back to tone again.

6) A very wide vibrato beyond *molto vib.* is indicated by: 

7) The rhythmic value of stemless noteheads should be interpreted very freely. The rhythmic value of these only serve to give a representation of the proportional length of the note to others.
